LIBERTY AND SERVICE

On July 4th, 1776, the ringing of the Liberty Bell announced to the world the birth of a new nation.

In the century and a half that has passed since that day, the Spirit of Liberty has been the keynote of the Republic's progress.

Just as the Republic is founded on the Spirit of Liberty, the Bell System is fostered and guided by a Spirit of Service.

That Spirit of Service has made the Bell System, one of the largest and most useful corporations in the country.

The telephone, a plaything of thirty years ago, has kept pace with the nation's growth until today there are 8,500,000 in daily use.

In the seven mountain states operated by your telephone company, there are 222,582 telephones giving daily service.

Private enterprise, guided by a Spirit of Service with a Liberty of effort, has made this development possible.

There are more telephones giving better service in the United States, than in any country in the world.
